John Netting

Director General of the Europe Business Assembly

Dear Mr. John,

We returned home so complacent and impressed with your fantastic settings, excellent arrangements and elegant presentations on the ceremonial event that it has become an unforgettable event and we proudly cherish the moment lifelong.

We must make a mention here of warm hospitality that we enjoyed and also that of response and attention of your authorities and personnel that we had during our sojourn over there.

While witnessing the ceremonial event represented by participants from various countries, one is made compelled to ponder about what amount of time, effort, dedication must have been involved while studying such a varied sector, that too, of the whole region of Asia Pacific and then making assessment and coming to the conclusion of declaring the best in each and every sector. Hat-off to the endeavor undertaken by your good office.

Having so said, we shall be failing in our duty if we here do not recognize and appreciate your team of experts for their painstaking effort, voracious research and analysis, embracing various socio-economic parameters in the global scenario over and above the prevailing financial parameters and then making assessment and analysis thereof and coming to the conclusion to such an accurate rating and declaring the ‘Best.’

The job undertaken and accomplished by your good office and experts was so wonderful that it deserves all the appreciation and no amount of appreciation would suffice to give justice to the whole team of your research scholars, financial experts and analysts who combined together made it possible to happen and made us all the participants awestruck at the grand success of the event.

We must also admit one more thing that the platform that you made available on the occasion of the ceremonial event consisting of so many representatives from various countries of multi-dimension sectors has provided us an access to and a new vista to generate business network amongst the participants in different countries direct or via your good office.

Lastly, we must frankly admit that our participation in your ceremonial event has become a matter of pride and honour to our whole bank family and even to our nation also.

Thanking you.

Yours truly,

*Narayan Das Manandhar*
